

Beatriz Merchel Piovesan Pereira

Brazilian

EDUCATION

PhD: Microbiology Graduate Group

University of California, Davis (UC Davis), Davis, CA, USA

September 2014 – in course

Master degree: Master of Chemical Engineering in the field of Chemical Process Development

Universidade Estadual de Campinas (Unicamp), Campinas, SP, Brazil

August 2010 – December 2012

Thesis title: Enzyme production by a filamentous fungus to the hydrolysis of lignocellulosic material.

(*Produção de enzimas por fungo filamentoso para hidrólise de material lignocelulósico*)

Advisors: Prof. Dr. Aline Carvalho da Costa and Dr. José Geraldo da Cruz Pradella

Bachelor degree: Biotechnology and Bioprocess Engineering

Universidade Federal do Paraná (UFPR), Curitiba, PR, Brazil

February 2006 – August 2010

EXTRA COURSES

Short course: Applied Dual Use Biosecurity Education: Online distance learning Module 30 Master level credit.

University of Bradford, School of Social and International Studies, Bradford, United Kingdom

September – December 2011

PROFESSIONAL AND RESEARCH EXPERIENCE

R&D Bioprocess Researcher

IMCOPA - Importação, Exportação e Indústria de Óleos Ltda.

Araucária, PR, Brazil

February 2013 – May 2014

Integrator of the CnpQ Project 456218/2012-2: Protein recovery and production of second generation ethanol from soybean hull (*Recuperação de proteínas e produção de etanol de segunda geração a partir de casca de soja*). Responsible for material acquisition, experiments planning and execution, team training, reporting results to the leader and to the Director of the R&D Department.

Trainee

Laboratório Nacional de Ciência e Tecnologia do Bioetanol (CTBE; *Brazilian Bioethanol Science and Technology Laboratory*), Centro Nacional de Pesquisa em Energia e Materiais (CNPEM)

Campinas, SP, Brazil

January 2010 – August 2010

Advisor: Dr. José Geraldo da Cruz Pradella

Activities: receipt of materials and equipment, Laboratory organization, planning and execution of experiments: *Penicillium echinulatum* cultivation, enzyme production and activity scanning, sugarcane bagasse pretreatment, enzymatic hydrolysis for second generation ethanol production.

Undergraduate Research

Universidade Federal do Paraná (UFPR), Curitiba, PR, Brazil

(August 2007 – November 2009)

Production and recovery of biotechnologically produced banana flavor. (*Produção e recuperação de aromas produzidos biotecnologicamente*)

Advisor: Prof. Dra. Adriane Bianchi Pedroni Medeiros

Activities: flavor production with filamentous fungi in solid state fermentation, experimental design, enzymatic analysis, optimization of culture conditions.

SCHOLARSHIPS

PhD scholarship: Science without Borders (*Ciência sem Fronteiras*), selected for a LASPAU administered scholarship

2014 - 2018

Research Scholarship: National Counsel of Technological and Scientific Development (*Conselho Nacional de Desenvolvimento Científico e Tecnológico – Cnpq*) SET-F type RHAE Program.

February 2013 – May 2014

Master Program Scholarship: Sao Paulo Research Foundation (FAPESP)

March 2011 – December 2012

US Department of State Bursary: BioEngagement program

September – December 2011

Undergraduate Research Scholarship: National Counsel of Technological and Scientific Development (*Conselho Nacional de Desenvolvimento Científico e Tecnológico - Cnpq*) and Araucaria Foundation (*Fundação Araucária*)

August 2007 – November 2009

LANGUAGES

Portuguese: native speaker

English: proficient

German: basic level

VOLUNTEER ACTIVITIES

August – October 2013: Volunteer activities with children and teenagers in the *Community in the School Program* promoted by the Curitiba City Hall.

RESEARCH INTERESTS

Biotechnology

Genetics/ Molecular biology

Biofuels

Synthetic Biology
